**why you think voters need to be informed:** Voters (and non-voters) need to be informed because these elections affect them. The elections coming up are crucial for our futures and too many people don't truly know what is going on, like myself.

**what policy/reforms do you think are important in Phila &/or PA:** The education in the Philadelphia area needs to be focused on. Whether you're a child going to elementary school or an adult going to a university, the systems at all educational institutions need attention.

**your own political leanings and who you support:** I tend to lean toward the Democratic party, but I am one of those voters that needs to be more educated on the candidates and the elections so I can't name *who* I support.
